ABOUT ME

I'm a Front-end developer with a background in working effectively in a dynamic environment. I stay focused on ensuring project(s) is/are done at a stipulated time if not before and with accuracy. I code designs into scalable and user-friendly websites using frontend languages such as HTML5, CSS3, JavaScript with a touch of React.

I have worked with a team of 20 in my career for an organization(s) so far, including the following to illustrate some of them:

☑ Sidehustleng

☑ ZuriTeam

A year of experience as a Frontend developer (2020 - 2021) developing designs to meet specific requirements such as quick loading sites with particular layouts, designing and updating layouts to meet usability and performance requirements, working with a product manager, backend developer, UI/UX designers to resolve technical issues and enhance a website.

OTHER EXPERIENCES

Frontend Web Development at Sidehustleng as an Intern

I started my journey as a self-taught developer. I further enhanced my skills by joining a group of amazing developers at Sidehustleng within the space of 3months.

I worked on the different assigned projects whilst being an intern at the incorporation such as:

Small Project

- Cloned and designed a non-functional login page form.
- Several functional cloned websites.
- ESchoolPedia Startup Landing Page Website.

Frontend Development at Zuri x I4G Training

I continued my learning process as a front-end developer at Zuri Training. I worked in a team of 20 to develop a real-world project "Wishful".
